NADRE SERVICES

Repository

A standard-based Open Access
Repository

Forum

A discussion forum for online
collaboration

Platform for MOOCs

Both a Content and a Learning
Management System

Agenda

A tool to manage from simple
lectures to complex conferences

Wiki

Wiki site for collaborative
documentation

The implementation of the NADRE Project includes the following activities:

A1 – Prepare and contribute to the implementation of the Conference, including the Pre- and Post Conference Workshops.

A2 – Elaborate a Training Plan.

A3 – Conduct a Workshop series.

A4 – Establish a NADRE Website and Manual

The expected outcomes/outputs of the NADRE Project are the following:

O1 – The Kick-off Conference, including the Preand Post-Conference Workshops

O2 – Training Plan

O3 – NADRE Website and Manual

The National Academic Digital Repository of Ethiopia (NADRE) intends to provide researchers, lecturers, students and stakeholders from outside of the academic world access to all research works published by Ethiopian universities and research institutions. All public and private universities as well as research institutions will contribute to the NADRE and will provide all citizens access to it. In order to complement and feed the NADRE each Ethiopian university is encouraged to build its own repository and to provide the Ethiopian Research and Education Network (EthERNet) access to that university repository in order to harvest and amalgamate publications from these repositories to a compiled National Academic Digital Repository of Ethiopia. Those universities that are not currently able to establish their own repository will get support from EthERNet to deploy their own Institutional Academic Repository (ADR). However, each university will be responsible for the curation of contents stored its own ADR.

The objective of NADRE is threefold:

To increase the access of academics and citizens in Ethiopia and worldwide to research works published by Ethiopian researchers at one of the Ethiopian universities or research institutions. To foster the dissemination of research outcomes and make them, as well as their authors, more visible inside and outside the country.

To spread completed research to other corners of the country to allow other researchers to build on.

For the time being, the NADRE will mainly include Master theses, dissertations, journals, articles, conference proceedings as well as all works published by researchers from Ethiopian universities and research institutions as well as from Ethiopian researcher living abroad. All artefacts will be published under Creative Commons licenses and will be tagged with Digital Object Identifiers (DOIs).

NADRE Events

The map to the right shows the locations of events (the Kick-off Conference and the four Training Workshops) organized and held by the NADRE project during its lifetime.
